

Choosing a Level IV Service Provider....

Proven Ability. Dependable Process. Reliable Equipment.

We work hard to understand your needs:

- Overall, we believe you want Reliable, Customized Equipment to operate, with an aim to maximizing your company's Return on Invested Capital (ROIC).
- A supplier Partnership you can count on!
- We offer:
 - Proven Ability to Deliver on Promises!
 - Dependable Processes for Recertifying & Upgrading your Equipment!
 - A unique Mix of Competent, Long-Term, Experienced People! and;
 - Trusted Capability to Deliver Excellent Equipment, customized to your needs!

You need a place to perform Level IV Inspections and Upgrades to your Rigs and Equipment

- Your Decision is an important one...
- It will affect:
 - The future Reliability and Utilization of the your Equipment;
 - The Quality of the Maintenance performed by your Rig Crews;
 - The Pride and Confidence of the Rig Crews' in their Equipment;
 - Your Customer's Confidence in your Equipment and your Brand!
- Ultimately, these will all have an impact on the Return on Invested Capital (ROIC) for the Organization over the next 5-10 years.

Internal Risks are ever present in these decisions....

- Will the money spent minimize downtime and equipment breakdowns in the future?
- Will the Level IV Recertification Vendor make you look bad in these difficult industry times?
- Will the Level IV Supplier you choose be able to meet your needs:
 - Will they blow through your budget amount?
 - Are they qualified to upgrade, certify and repair the equipment?
 - Will unnecessary and expensive change orders be sent afterward?
 - Could the opportunity be used to increase the scope of the work and drive up the price?
- Will the Rig Crew be capable and motivated to maintain the equipment effectively for the next 24,000 hour interval? Will the equipment be reliable and serviceable?

You Deserve:

- A Dependable Level IV Process that Recertifies and Improves the Reliability of your Equipment for the next 24,000 Hour of Operation.
- A Process that allows you to select and communicate clearly the scope and details of your Level IV, from a Basic Level IV Mast Inspection, through to our complete Overhaul and Upgrade of your Equipment.
- A Quoting Process that is reliable and respects your budget, your time and the value of your investment. We will give you the options and work to ensure change orders are minimized.
- Knowledgeable, Proven industry Professionals that can identify and manufacture Custom Upgrades to meet the ongoing industry demands.

At CARE Industries:

- We know how hard the last few years have been on the people and equipment still working in this Industry.
- We can see that there is a growing backlog of equipment that requires Level IV's and a need to get it done right.
- We respect this is an important decision in the outcome of the next 24,000 hours of Operation.
- We will continue to be here for the Long-haul. We've been here for 20 Years and we are ready for many more...

Customer Testimonials...

Darwin with CWC said “CARE has done a majority of CWC’s Projects and the end result always exceeds our expectations, from management to the employees they take pride in what they do and it shows in the end result. When the rigs come out from Level IV’s there is very little down time required to get it field ready and this is a big cost savings on our end.”

Customer Testimonials...

Brian Garrett with Saxon Land Rigs, a division of Schlumberger said”...I filled the survey out honestly, I really have nothing to add to it in terms of areas of improvement. CARE is by far the best facility that I have worked at and although a bit more expensive than some of the other places I feel that we are getting a much better product and better service.”

Schlumberger

We've Helped them with
their equipment!

- Let us HELP YOU with your
Equipment Needs.

Proven Ability. Dependable Processes. Reliable

Here is our Plan for your equipment:

Identify a Rig that requires a Level IV/Restoration and isn't contributing to your ROIC. Let us get your equipment ready!

Let us Disassemble the Rig and get you a hard quote for the systems you want repaired. You maintain control over the scope.

Select the components and systems you want us to look at and customize the process to your needs. We will provide quotes for each area.

Based on the scope of work selected, you will get a reconditioned Rig delivered on time and ready for another 24,000 hours of work.

Assign the crew and have confidence in the Equipment. You can have confidence knowing we are here for you and your equipment needs.
